

Felt Cactus Craft

Draw the outline of your cactus. You can draw it on paper first or draw it directly onto your fabric. Cut out shapes.

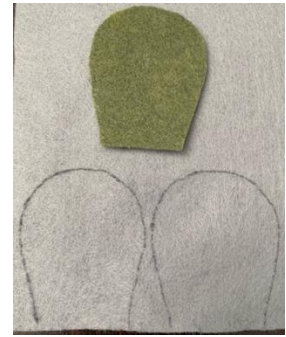

Draw lines on your cactus using a pen or pencil. The side you draw on is the “wrong side” and will be on the inside of your cactus.

Sew a running stitch over your lines.

<https://m.youtube.com/watch?v=i1-B01FB56s>

You can also add small side stitches to embellish your running stitch, using the same idea (sew in through the same side you came out of).

When all the running stitches are finished, use a blanket stitch to sew both pieces together. <https://m.youtube.com/watch?v=VpTRSsbqUso>

If you want to stuff your cactus, sew the front and back together about half way, and then fill it with polyfill or scrap material.
